

Sea Life

By Dona Herweck Rice

DISCUSS

Talk through your thoughts.

- Which sea animal is your favorite? Talk about the animals you have seen before.
- Look at a map with someone. Find where there are seas. Find where there are oceans.

CREATE

Make an experience of your own.

- Draw a picture of two sea animals. Make a chart to see how they are the same and how they are different. Show it to someone.
- Make a snorkel mask and pretend you are swimming in the sea. Find some friends to play and have them pretend to be sea animals or plants.

IMAGINE

Use your imagination to explore.

- Explore the Words to Know at the back of the book. Write a creative story using as many of these words as you can.
- With an adult, visit a pet store and check out the water creatures.
